PASSIONATE SOFTWARE DEVELOPER WITH OVER 3 YEARS OF EXPERIENCE IN FULL-STACK DEVELOPMENT USING ASP.NET CORE. PROVEN EXPERTISE IN DESIGNING AND IMPLEMENTING WEB APPLICATIONS, INTEGRATING AI, AND MANAGING COMPLEX DATABASES. SKILLED IN COLLABORATIVE ENVIRONMENTS WITH A FOCUS ON DELIVERING HIGH-QUALITY, SCALABLE SOLUTIONS.

I am seeking challenging opportunities where I can fully use my skills for the success of the organization. I want to succeed in a stimulating and challenging environment that will provide me with advancement opportunities. I want to excel in this field with hard work, perseverance and dedication.

EXPERIENCE

Internship

The Revolution Technologies

At Revolution Technology, I gained comprehensive experience over a six-month period, starting as an intern and progressing to a junior developer. During my internship, I assisted in the development and maintenance of ASP.NET Core web applications, collaborated with senior developers on feature implementation, and contributed to code quality through reviews. As a junior developer, I took on more complex tasks, led the integration of DataTables.js for interactive data presentation, and implemented AJAX-based solutions for enhanced user experience. My role also involved database seeding with Entity Framework Core and integrating advanced features such as AI for automated installment plans and CRM module enhancements.

Dot Net Developer

Develop Together

I worked as a developer for a year, focusing on both front-end and back-end development in ASP.NET Core. I was responsible for designing and implementing web applications, ensuring seamless integration between the client and server sides. My role included developing dynamic user interfaces using Razor views and enhancing user interactions with AJAX and JavaScript. On the back end, I managed data operations using Entity Framework Core, developed RESTful APIs, and ensured data integrity and security. My work also involved collaborating with cross-functional teams to deliver scalable and high-performing applications that met client requirements.

Dot Net Core Developer

ByteTech Solutions

At Byte Tech Solutions, I am currently working as a .NET Core developer and have been in this role for one year. My responsibilities include designing, developing, and maintaining web applications using ASP.NET Core, focusing on both front-end and back-end development. I work on creating responsive and user-friendly interfaces with Razor views and AJAX, ensuring seamless user experiences. On the back end, I handle data operations with Entity Framework Core, develop robust APIs, and implement security measures. I collaborate closely with cross-functional teams to deliver high-quality, scalable solutions that meet client needs and drive business success.
